

## **Pond Dye (Blue, Black & Blue/Black)**

### **Product Technical Data Sheet**

**Product Code: 48-PONDY-BLU, 48-PONDY-BLA & 48-PONDY-B/B**

#### **Product Description**

Pond dye is a synthetic dye which assists in temporarily altering the physical colour of the water. It is available in Blue, Black & Blue/Black options. The dye is available in small 100g satchels. The dye is a quick-action treatment. Methods of mixing aid the dye in quick dispersion.

Once applied, the dye usually lasts for 2-3 months depending on environmental factors such as rainfall events.

#### **Uses and Application**

In ornamental, irrigation, light industrial or aquaculture ponds. The pond dye assists in a physical change of colour of the water and creates a film over the water.

#### **Ingredients**

Synthetic Organic Dye.

#### **Application**

Simply open the satchel and disperse product into the water. Placing the product close to equipment that will aid in mixing the water is recommended. Do not apply directly to equipment.

It is advised to wear protective clothing when applying and handling the product. Spillage can cause staining. Avoid contact with skin and eyes.

#### **Dose rates**

1 100g Satchel usually treats 1 million liters of water volume.

#### **Storage**

Store in a cool, dry space between 10-25°C away from strong oxidants.

#### **Safety + First Aid**

This product is considered non-toxic, if concerned consult a physician.

## **Disposal**

Product and packaging can be disposed of in regular waste. No special disposal method required.
